

ICMAM Latin America Satellite Conference on Differential Geometry 2025

September 25-26

The ICMAM Latin America Satellite Conference on Differential Geometry will take place virtually on September 25–26, 2025. This event brings together researchers and scholars interested in various aspects of differential geometry, providing a space for the exchange of ideas, presentation of recent results, and discussion of open problems. The conference is intended as a platform to promote interaction among participants at different stages of their careers and from diverse academic backgrounds. All those interested in differential geometry are welcome to join and contribute to this academic event.
